

(Senior) Research Associate - Protein Analytics (m/f)

Job ID: IOM-1021

Who we are

iOmx is a young, dynamic start-up in the field of immuno-oncology located in Martinsried/Munich, Germany. We are focused on innovation-driven research to advance our proprietary early stage novel immune-checkpoint molecules through pre-clinical and clinical development. We are looking for highly motivated, self-driven and competent colleagues who share our vision and wish to contribute to translating this vision into reality.

Your Tasks and Responsibilities

You will develop expertise in and contribute to the characterization of recombinant proteins (e.g. monoclonal antibodies, engineered molecules, ligands or receptors) in our Discovery and Analytics labs which include a proprietary antibody generation platform. Our labs are equipped with state-of-the-art techniques for protein-protein interaction studies to:

- Determine affinity and binding kinetics
- Conduct epitope binning experiments
- Perform antibody specificity analyses
- Evaluate new assay technologies

As a key member of our team, you will be responsible for the design and conduction of the above-mentioned experiments including careful documentation and presentation of your results in internal team meetings.

Who you are

- You hold a MSc/Diploma (FH, university or equivalent) in bio-/chemistry, biophysics, biotechnology, engineering or a related discipline or have completed a vocational training as laboratory assistant (BTA, MTA or CTA) or an equivalent education.
- You are a person who is well organized, thorough and diligent in his/her task completion.
- You are a highly motivated and independent individual with excellent communication and interpersonal skills who is effective at working in a collaborative and diverse environment.
- You are experienced in design and evaluation of protein interaction studies or have experience in protein characterization and are eager to qualify with further training as a protein analytics expert.
- Ideally, you have first experience with biosensor instruments such as Octet RED or Biacore.
- You have good knowledge of English (spoken and written)

Your Application

We offer a competitive salary and benefits package. Applications for this position should be forwarded to careers@iomx.de by submitting a cover letter indicating the relevant Job ID, your CV and references in English or German.
