

## Research Associate - Protein Analytics(m/f)

Job ID: IOM-1030

### Who we are

iOmx is a young, dynamic start-up in the field of immuno-oncology located in Martinsried/Munich, Germany. We are focused on innovation-driven research to advance our proprietary early stage novel immune-checkpoint inhibitor molecules through pre-clinical and clinical development. We are looking for highly motivated, self-driven and competent colleagues who share our vision and wish to contribute to translating this vision into reality.

### Your Tasks and Responsibilities

The Antibody Development Team supports other teams within the organization by providing various recombinant proteins (e.g. monoclonal antibodies, engineered molecules, ligands or receptors) of high quality in an on-demand fashion. You will further strengthen our team with your expertise in protein analytics. Your responsibilities will include the following tasks

- Biophysical characterization of protein preparations by SDS PAGE, SEC, IEX
- Development and optimization of protein analytical methods
- Purification of recombinant proteins by chromatographic methods via semi-automated systems
- Basic functional characterization of protein preparations by, e.g., ELISA or FACS
- Biochemical and enzymatic manipulation of proteins

Careful recording and documentation of results as well as presentation of your results in team meetings also belongs to your tasks.

### Who you are

You are a person who is well-organized, service-oriented, thorough, reliable and diligent in his/her task completion. You are a highly motivated and independent individual with excellent communication and interpersonal skills who is effective at working in a collaborative and diverse environment. You hold a degree in biology, biotechnology or related fields, or have a completed vocational training as laboratory assistant such as BTA, MTA, CTA or equivalent, with

- Proven experience in a broad range of protein analytical methods
- Independent setup, programming and handling of HPLC systems
- Thorough understanding and practical know-how in protein purification
- Hands on experience in biochemical and molecular biology techniques
- Basic expertise in cell culture techniques is useful
- High sense of responsibility for product quality and appropriate documentation
- Good knowledge of English (spoken and written)

### Your Application

This position is currently limited to one year with the opportunity of permanent employment. We offer a competitive salary and benefits package. Applications for this position should be forwarded to [careers@iomx.com](mailto:careers@iomx.com) by submitting a cover letter indicating the relevant Job ID, your CV and references in English or German.
